

HW-600XL/GL FULLY HYDRAULIC CORE EXPLORATION RIG

Drilling capacity

Diameter	HTW-NTW-BTW
Depth	200-600-650

Hydraulic system

Rated pressure	21
Rated flow	192
Cooling type	Air cooling + Water cooling

Engine

Brand	Yuchai
Type	Turbocharged
Rated rotary speed	2400
Rated power	92

Power head

Maximum torque	450-1000
Maximum rotary speed	1300
Feeding stroke	1900

Drilling tower

Type	Ground contact integrated tower
Drilling angle	45-90
Lifting force	16
Feeding force	8

Hydraulic mud pump

Flow	30-90
Pressure	4-7
Transport dimension	4000*2000*1800
Weight	4.5/5.5

Winch

Lifting force	600
Rotary speed	100-300
Wire rope diameter	6
Rope capacity	600

**Thin-Wall Diamond
Wire Coring Drilling
Technology**

- Advanced structure
- Full hydraulic transmission
- Multi-angle tower on touchdown
- Precise and convenient operation

HENGWANG

SHANDONG HENGWANG GROUP

We have the well-equipped machine, advanced technology, and strict quality management system. Excellent quality and good service win trust and reward in domestic and overseas. We sincerely welcome friends from all over the world to come for a visit and cooperation!
